# VitalMobile

PROFESSIONAL TELEHEALTH & MONITORING SERVICES

VitalMobile is a Professional Telemonitoring Service provider supported on its own technology, platform and experience, dedicated to B2B Partners and healthcare service providers,

### **Professional Telemonitoring since 2006**

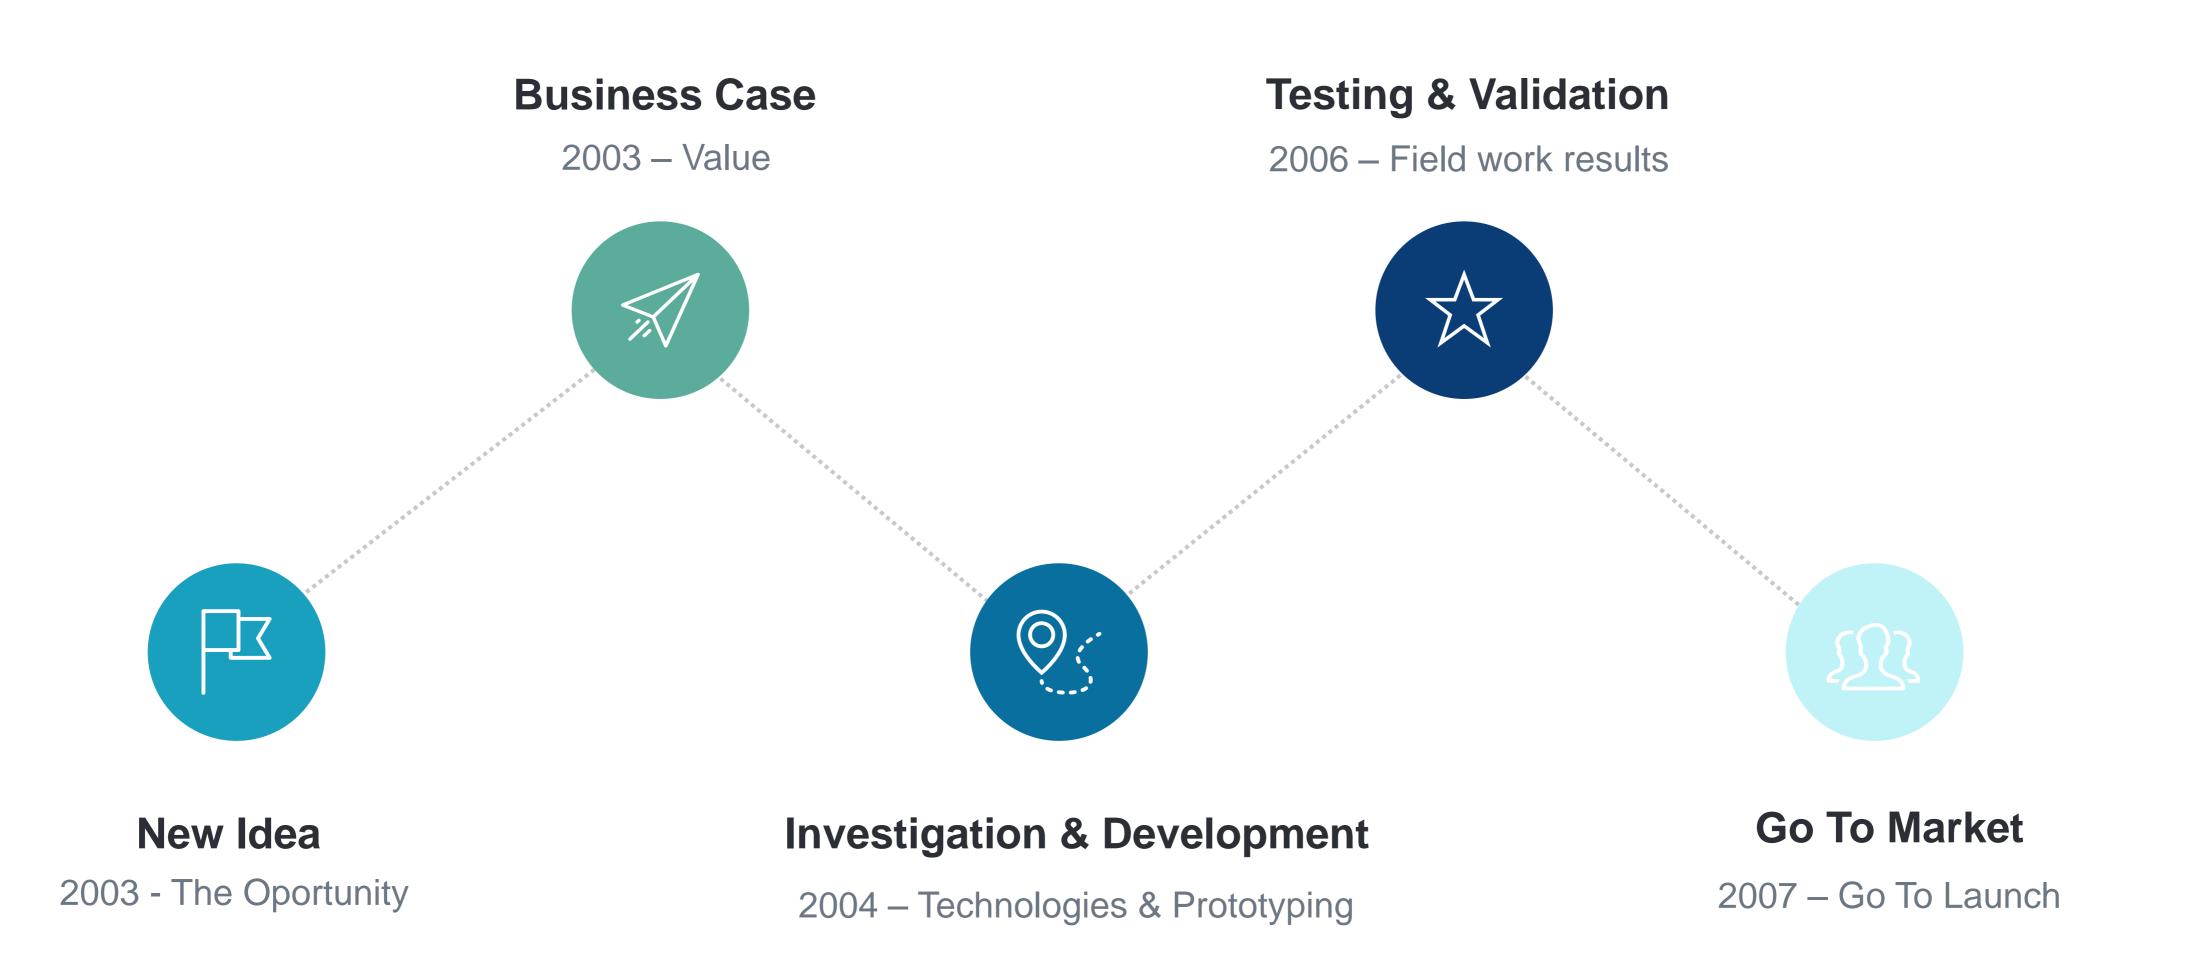

VitalMobile is the name that started Patient Remote Telemonitoring, enabling disruptive and improved Health Care Services delivery to chronical patient's through its partners. The platform, using the first cloud concepts (and SaaS), went into production 24h/7d, in mid-2006.

The company has developed and offered critical and effective solutions and services for several diseases, supported on VitalMobile Platform and has shown consistent satisfaction levels (over 90%), from everyone involved.
