Reference:	Validit – Fullstack Developer
Company Name:	Validit
Company Type: (Startup/Mature/...)	Startup
Location: (full address)	Haifa (palyam 2 st.) / Caesarea (Eshel 1 st.)
Duration of stay: (min 2, max 6 months)	Min 2 max 6+ month

Company Description:

Validit is a venture developing a disruptive fraud detection and prevention platform using bio-metric measurement technology and polygraph-based methods.

Our solution uses smartphone sensors to measure physiological vital signs changes combined with cognitive user input. That, combined with deep-tech AI and our unique domain expertise, enables us to offer a fully remote, contactless, zero-training technology that provides the highest accuracy, just like a physical polygraph test.

We can validate any statement or disclaimer and detect deception remotely with the highest accuracy, allowing companies (e.g., insurance, finance, retail) to minimize risk and save money and time significantly.

Our offices are located in Haifa and Caesarea.
