Vecoplan AG in Italy

Bolzano, Italy

Our target groups at a glance

Plastics processing industry

Wood working trade

Bioethanol producer

Recycling companies

Pulp industry

Sawmills

Wood and biomass power plants

Wood working industry

RDF producer

Cement industry

Timber industry

Raw materials producer

Data management service provider

The Vecoplan business unit

Primary industry

Secondary industry

Energy

**WOOD
BIOMASS**

Primary industry

Sawmills, timber industry, pulp industry

Plant components:

- **Conveying technology**
- **Loading- /unloading systems**
- **Storage and dosing systems**
- **Chipper lines**
- **Screening and separation technology**

Secondary industry

Wood working industry, furniture industry,
manufacturer of prefabricated houses,
wood working trade

Plant components:

- Shredding technology
- Conveying technology
- Screening and separation technology
- Storage technology

Energy

Wood and biomass power plants

Wood pellets producer

Bioethanol producer

Plant components:

- **Conveying technology**
- **Storage and dosing systems**
- **Screening and separation technology**
- **Chipper lines and shredder**

The Vecoplan business unit

Mechanical recycling

Thermal recovery

Data destruction

RECYCLING WASTE

Mechanical recycling

Recycling companies

Plastics processing industry

Raw materials producer

Plant components:

- **Shredding technology**
- **Conveying technology**
- **Screening and separation technology**

Thermal recovery

Cement industry

RDF producer

Waste-to-Energy-plants

Plant components:

- Shredding technology
- Conveying technology
- Storage technology
- Loading /unloading systems
- Screening and separation technology

Data destruction

Government/public facilities

Data management service provider

Plant components:

- Shredding technology
- Conveying technology
- Trucks

Service

High reliability

- 24/7 – 365 days
- Live-Service
- Service-App
- Maintenance
- Retrofit
- Training

Vecoplan Technology Center

The world's largest and most modern development center in the
field of environmental technologies.

Vecoplan®

Technology Center

- Approx. 1.000 m² area
- 220 test trials per year
- Min. ten shredders installed
- Laboratory for lab-tests
- Data base of 2000 tests
- Huge amount of equipment

Name it – we solve it!
Thank you for your Attention
