Organizations of the Republic of  
Azerbaijan (ASK)

July 10, 2018, Baku

"Mammad Musayev, the president of Azerbaijani Confederation of Entrepreneurs said that Azerbaijan has carried out revolutionary reforms, and this process moved on very quickly: "The creation of an electronic trading platform - the Azexport portal has greatly contributed to exports in Azerbaijan. At the beginning of our cooperation with "Azexport", the export price for cotton fibre was approximately 1300-1350 US dollars. Thanks to the "Azexport" today, this price has increased by \$ 1,750. We expect a further increase in the price of this product. So, thanks to the foreign customers discovered by "Azexport", each ton of the cotton fibre is now sold about \$ 400-450 or 1/3 more expensively, which contributed to the flow of millions of additional export currency in the country."
