Reference:	Siemens - Data Analyst AMN
Company Name:	Siemens Digital Industries Software
Company Type: (Startup/Mature/...)	High tech, Manufacturing
Location: (full address)	Siemens Industry Software Ltd. 2, Negev St. / P.O. Box 1013 Airport City 7019900
Duration of stay: (min 2, max 6 months)	5-6 months

### Company Description:

Siemens Digital Industries Software (DI SW) is a business unit of Siemens AG, a German multinational conglomerate corporation and the largest industrial manufacturing company in Europe. Siemens DI SW is driving transformation to enable a digital enterprise where engineering, manufacturing and electronics design meet tomorrow. Our solutions help companies of all sizes create and leverage digital twins that provide organizations with new insights, opportunities and levels of automation to drive innovation. For more information, please visit <http://sw.siemens.com> and Additive Manufacturing Network (AMN) website: <https://additive-manufacturing-network.sws.siemens.com>

### Job Description and Tasks:

Our team is looking for you! A Data Analyst to join our Additive Manufacturing Network. As a Data Analyst, you will play a crucial role in enhancing our product visibility and driving informed decision-making processes. This is an exciting opportunity to shape the way we measure our product's success and make a significant impact on our roadmap.

### Responsibilities:

- Collaborate with the R&D team to build robust tools that enable our business teams to make data-driven decisions and enhance our products.
- Conduct comprehensive analysis of product performance to identify insights, uncover bottlenecks, and discover growth opportunities.
- Develop interactive data applications and visualisations using tools like Amplitude, to support customer success efforts.
- Provide data-driven recommendations to the product and UX, assisting in better decision-making processes regarding features and roadmap development.
- If you're passionate about data and interested in working with a dynamic and collaborative team, we encourage you to apply for this exciting opportunity.

### Essential Requirements:

- Bachelor's degree in related field
- Strong analytical skills with the ability to interpret data and draw actionable insights.
- Excellent communication skills, both written and verbal.
