APROVIS – GAS TREATMENT DIVISION

Gas Production:

Bio-Scrubber:

Gas Cooling (FriCon):

Gas Reheating:

Activated Carbon Filter (ActiCo):

Gas Booster/Blower:

CHP-Unit

Bio/Sewage/Landfill gas production

Pre-desulphurization

Condensate removal

Removal humidity adjustment

Fine H₂S and/or VOC/Siloxane Removal

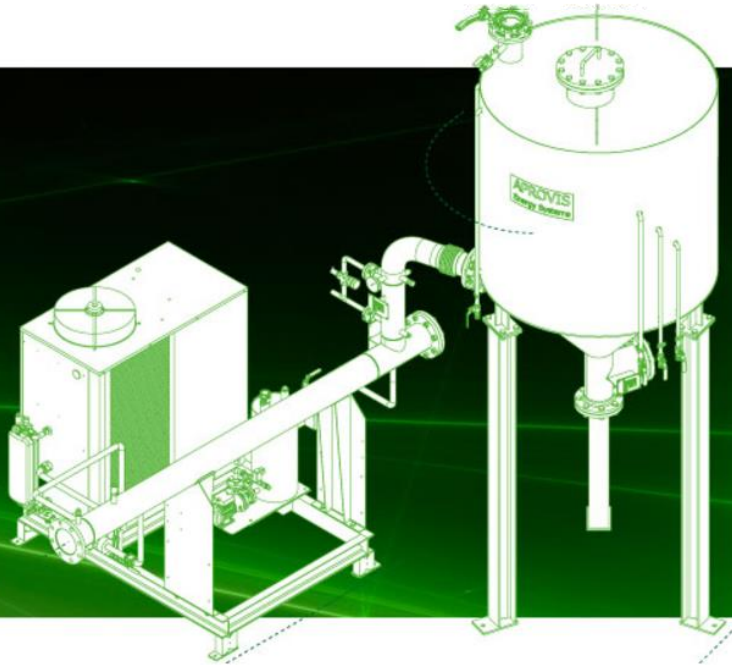

Biogas delivery to the engine

Electricity and Heat Generation

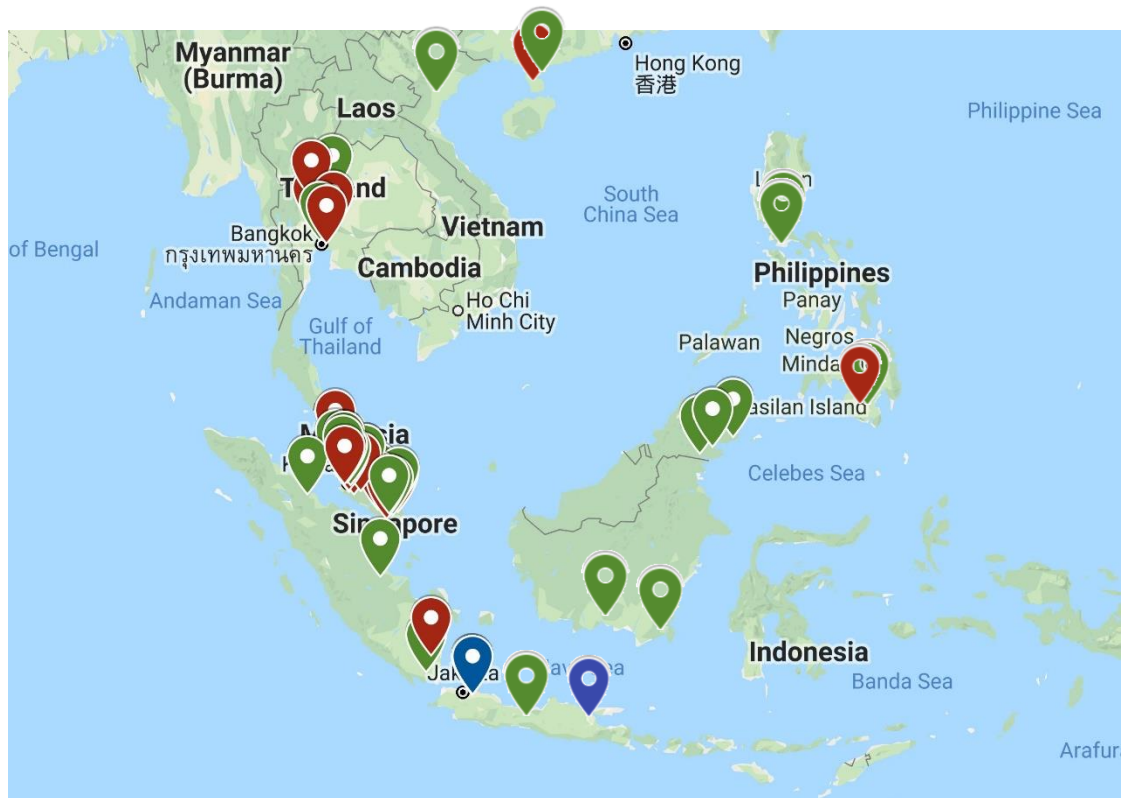

FriCon - GAS DEHUMIDIFICATION

GAS PROCESSING

FriCon and ActiCo – the ideal gas treatment from a single source

APROVIS FOOTPRINT SOUTH EAST ASIA

Legend:

-  Exhaust Gas Steam Generator
-  Exhaust Gas Heat Exchanger
-  Biogas Treatment

As of June 2020 over 70 plants throughout South East Asia
