# GLOBAL MEGA-TRENDS CHANGING THE WORLD

**FOOD SUPPLY**

**CLIMATE CHANGE**

**World trade war looms as Trump hits allies with tariffs**

**A more volatile world**

# Danish and European prosperity is founded on free trade

- The wealth and high quality of life in Denmark and EU has been created by our many exporting companies

# Where do we need the EU to focus?

---

Protecting free trade, securing companies' access to talents and preventing cyber attacks should be a top priorities for the EU

---

# Lead on climate change

We need the EU to secure

---

1. Ambitious energy and climate targets
  2. The right political framework conditions
-

# We need a strong EU more than ever

---

**Politics:** consistent and cooperative

**Planet:** ambitious climate targets

**People:** free movement of labor and engagement of population

---
