

Energy Transition Made in Germany - An Introduction

AHK Trade Mission Poland
„Charging infrastructure for eMobility“
Silke Jenssen, energiewaechter GmbH

24th November 2020, online

The German Energy Solutions Initiative

- We facilitate business partnerships in the field of renewables, energy efficiency technologies, smart grids and storage technologies
- Our aims, based on a **parliament decision** 2002
 - to support small and medium-sized enterprises
 - to distribute smart and sustainable energy solutions
 - to contribute to international climate protection
- Coordinated and financed by the **German Federal Ministry for Economic Affairs and Energy**

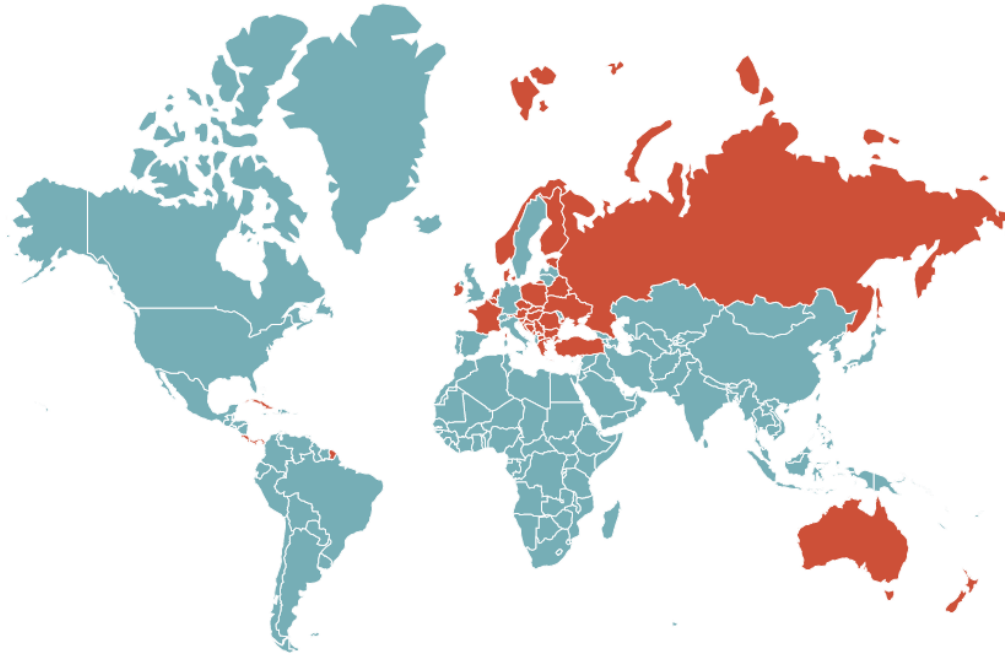

Where to find more information

www.german-energy-solutions.de/en

- **Online database:** Profiles and contact information of German companies
- **Latest information** about German energy solutions
- **Upcoming events** of the initiative
- **Newsletter**

Upcoming events

www.energiewaechter.de

- energiewaechter facilitates a range of bilateral exchange formats within the regions Europe, Central America, Australia & New Zealand
 - AHK TRADE MISSIONS
 - FACT FINDING MISSIONS
 - WEBINARS
 - EXPERT SEMINARS

→ Fact finding mission Poland 2021 / „Solar heating networks“

Energy transition in the German mobility sector „Verkehrswende“

- Targets in Germany for 2030
 - **1 million** charging stations
 - **10 million** electric cars on the road
- Charging infrastructure for e-mobility
 - Markus Emmert (Member of the board, German Federal Association for eMobility)
