Who cares about maritime cyber anyway?

Or, why would a cyber criminal target us?

1.5 tons

of cargo per each person shipped yearly

80%

by volume of EU exports and imports

~1%

of cost of cup of coffee

WÄRTSILÄ

What makes maritime a **challenging domain** for cyber security?

It takes a village to raise a child.

Building a vessel?

Collaboration across continents.

Where are we today?
How about in future?
