

**EMPOWERING EUROPEAN HEALTHCARE**

# DOC JOB EU

The Europe-wide placement program  
of doctors for clinics.

# CURRENT SITUATION

There is a shortage of trained professionals and carers: hospitals and other medical establishments urgently require a way of filling job vacancies and stabilising the general medical care.

At the same time, young doctors in European countries often face difficulties trying to access the training and qualification programs that can lead them towards a promising career successfully.

# OUR ANSWER: A PAN-EUROPEAN PLACEMENT PLATFORM

We firmly believe that the solution lies in new, Europe-wide collaboration models. That is why we are using this online platform to enable and promote a simple, appropriate and reliable way of arranging for doctors in the EU at clinics.

# A WIN-WIN SITUATION:

Doctors from European countries receive the best possible training and career prospects for working throughout Europe.

Hospitals and medical facilities in the EU enter their job vacancies to ensure the provision of medical care in the country.

# INTELLIGENT ONLINE PLATFORM

- Online platform with dual direct entry and structure (doctors/hospitals) and clear, simple user interface.

# THE TEAM BEHIND DOC JOB EU

A background image showing a group of medical students in blue scrubs and stethoscopes walking through a modern hospital hallway with large windows. A semi-transparent teal box is overlaid on the center of the image.

**WE MEDIATE YOUNG DOCTORS  
FROM THE EU FOR FURTHER  
EDUCATION AND TRAINING TO  
GERMAN CLINICS.**

## The technical designs and programming of <https://www.docjobeu.com/de>

### **CMS:**

Grav CMS

Open Source Flat-File CMS

- PHP (TWIG) Templating
- Markdown for contents
- YAML for page configuration

### **Theme:**

- Responsive/Adaptive
- Technik: HTML, PHP (TWIG), CSS, JavaScript

### **Server:**

- Web Server (Apache, Nginx, LiteSpeed, Lightly, IIS, etc.)
- PHP 7.3.6 or higher

(optimal with following moduls:

curl

ctype

dom

gd

json

mbstring

openssl

session

simplexml

xml

zip extension support)

- FTP and SSH-access

### **Service and drawing up the contents :**

System: CLI- Console, or over Admin Panel

Content: with FTP or Admin Panel
