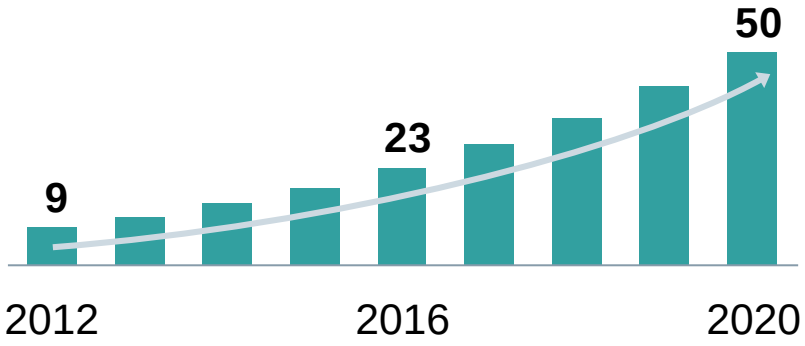
Digital transformation

Connected devices, in billion

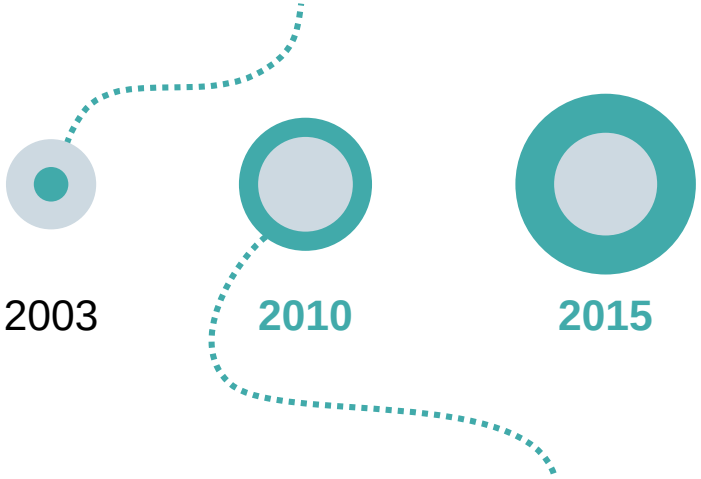
Exponential growth of connected devices...



… and digital data

ZB = zettabytes = 10^9 terabytes

The year 2008 marked the first time in history that more **devices** were connected to the Internet than there were **humans** on earth



There are **many more devices** connected to the Internet than just smartphones and tablets

Siemens Value propositions in creating perfect place

SIEMENS
Ingenuity for life

comfortable and safe

- Ensure well-being and protection of people and places
- Optimize room conditions and intuitive operation
- Guarantee LifeCycle performance

energy and asset efficient

- Enhance business continuity through asset and building efficiency
- Optimize OPEX including energy and maintenance costs
- Enhance public perception through increased sustainability
- Achieve flexibility and resilience with Distributed Energy Systems

space and user efficient

- Create user centric building experience
- Impact building user productivity and satisfaction
- Increase space efficiency and utilization
- Improve equipment utilization

Hospitals

SIEMENS
Ingenuity for life

Assets Usage

Lower CAPEX or rent cost thanks to increased usage

Process optimization

Analyzes patient, staff and assets paths and response times

Patient Mgmt

Improves pathways and waiting time for optimal patient management

Sicurezza

Create and configure virtual constraints and alerts related to assets or people

Unrestricted © Siemens SpA 2019

Wharehouses

Asset Localization

Lower CAPEX or rent cost thanks to increased usage

Process Optimization

Analyzes asset movements and paths

Energy Savings

Lighting management can significantly reduce energy consumption

Safety & Security

Analyzes the presence of people or things in motion in all areas

Unrestricted © Siemens SpA 2019

Offices

Spaces

Reconfigure meeting rooms and common areas to optimize their use

Smart Work

Allows you to create a truly Smart office that adapts to your needs

Flows

Analyzes flows and bottlenecks to handle high-density points of people

Cleaning

Track frequently used areas to optimize time and resources

Unrestricted © Siemens SpA 2019

The labour market is **changing**

SIEMENS
Ingenuity for life

PEOPLE

Workers today expect more choice on how, where and when to work

SPACES

Real Estate prices are very high - while office space is not fully exploited

TECHNOLOGIES

Office technology must be intuitive and part of a holistic vision

Comfy Insights

Comfy combines data from people, locations and systems to provide greater transparency about:

Building performance
Use of spaces
Interactions between employees and the workplace

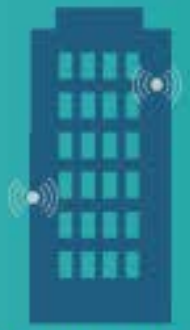
The journey to

self-adaptive buildings

Cave

Traditional building

- Sub-systems working in silos



Automated building

- Fully integrated
- Connected IoT devices
- Centralized control

>> diagnostic <<

Cyber-physical building

- Smart, combining the digital & physical world
- Starting point for AI

>> predictive <<

'Living', self-adaptive building

- Acts as a living organism
- Anticipates needs

>> prescriptive <<

Reaching the vision:

Σ Data + Σ Data Scientists → Self-adaptive buildings
