

# PROSTEP AG

**Leading German software specialist seeks Australian business partner –**

**Virtual meetings available from 24<sup>th</sup> – 27<sup>th</sup> November 2020**

## Company Profile

### WE INTEGRATE THE FUTURE

PROSTEP is the leading, vendor-neutral consulting and software company for any and every aspect of product lifecycle management (PLM). We provide customers with support for their digital transformation and help make them fit for Industry 4.0. Our strengths include PLM strategy consulting and process optimization, system selection and implementation, PLM integration and migration, as well as secure data exchange and conversion. We provide you with support from the initial concept through to the implementation and commissioning of your PLM solution.

## Products / Services

- Vendor independent and agnostic strategy consulting to conceptionize, select and architect PLM Solution as the Digital Platform within discrete manufacturing companies
- OpenPDM as the basis for the Digital Platform integrating PLM, ERP, ALM and legacy systems.
- OpenPDM SHIP as the increment to OpenPDM providing connectivity into marine & offshore specific design systems
- OpenPDM CCenter as the increment to OpenPDM providing collaboration hub capability for joint ventures and supply chain scenarios
- OpenDXM GlobalX as the secure data exchange platform that integrates development partners, suppliers and joint ventures without the risk of intellectual property (IP) theft

## Competitive Advantage

- Germany-based company with strong marine & offshore (M&O) background
- Vendor independence
- Synergy from industries incl. auto, aero, space, transportation, defense ...
- Support for standard enterprise systems (PLM, ERP, ...) and M&O branch specific systems (AVEVA, CADMATIC, HEXAGON, NAPA, SSI, ...)
