COMPANY DESCRIPTION:	Stella, S.A aims to process, produce and market chocolates in the full range of assortments, as well as cocoa, chocolate, mixtures and premixtures based on flour, pastes and fats associated to the baking and bakery. The product portfolio of our company is composed of cocoa butter and micropulverized cocoa (exportable products). As well as the chocolate tablets of different grammages, filled chocolates, chocolate powder for preparations, premixes based on flour for the bakery and bakery. Our company imports raw materials for the industry, such as nylon and paper bags, cases, wrapping paper, aromas and non-hydrogenated fats.
EXPORT PRODUCTS:	From the processing of the liquor raw material or cocoa paste in our factory, we obtain cocoa butter and cocoa in round form, which can be chopped or micropulverized
FOREIGN INVESTMENT OPPORTUNITIES:	To create a Joint Company that integrates the national and international distribution of own brands and brands licensed by our Company. We will need to acquire the necessary capital for the modernization and updating of the production lines of our Factory, as well as the financial resources for the international promotion of this product, which will increase the amount of exports, with the quality expected by the market.
