to 7.00 pm

COVID-19 (Coronavirus) is having a material impact on global business. Travel restrictions, disrupted supply chains, subdued demand, and labour issues have unsettled global markets. Though the spread of the contagion has been relatively limited in India, it is expected to have significant effect on Indian commercial and business activity.

In this webinar, organized by **Khaitan & Co** in collaboration with the **Indo German Chamber of Commerce (IGCC)**, **Germany Trade and Invest (GTAI)**, and the **Consulate General of the Federal Republic of Germany**, the panellists will highlight likely impact of COVID-19 on business environment in India.

The agenda for this webinar will include

- Current situation & regulatory measures
- Key employment considerations (including, containment, workplace management, health and safety, dealing with suspected cases)
- Commercial considerations and business continuity (including, supply chain disruption, contract management, operational impact)
- Likely impact on Indian economy and the Indo-German business relations
- Q&A session, where panelists will answer audience questions

This webinar will be relevant for

- Promoters and management of Indian and German companies
- General counsels and legal teams of companies with business in India
- Human resource departments of Indian and German companies
