

European pre-T1D Registry

This project is supported by:

THE LEONA M. AND HARRY B.

HELMSLEY

CHARITABLE TRUST

European pre-T1D Registry

The **European pre-T1D Registry** is a network of investigators who register children and adults diagnosed with early-stage T1D to

- ★ harmonize and improve quality of clinical care
- ★ accelerate trial enrolment and access to disease modifying therapy
- ★ disseminate information to families with early stage disease

islet autoantibody positive children/adults

Dashboard: www.pre-t1d-registry.eu/dashboard

European pre-T1D registry for children and adults with islet autoantibodies:

Included into the registry are children and adults with islet autoantibodies who have not yet progressed to clinical (stage 3) type 1 diabetes. Data from their last assessment are shown in this dashboard.

For more information, please view www.pre-t1d-registry.eu or contact pre-t1d-registry@helmholtz-munich.de
