

# Porsche NEXT OI Competition

Launching on **26.02.2019** during **Mobile World Congress**

2019

**Home**

**Driving**

**Arrival**

## Create innovative connected car applications for Porsche sportscars

The Porsche NEXT OI Competition is back! This year, we want you to focus on three scenarios: Home, Driving and Arrival - the three essential elements in every journey. We're looking for innovative connected car apps that apply to one or all of these stages. For example, your app could focus on electric vehicle charging while at home, in-car entertainment on the move and airport services on arrival. We can't wait to see your groundbreaking ideas!
