

Programme - DRAFT

Fact-Finding Mission “Charging infrastructure and Storage Technologies for e-mobility”, India

**Monday 14.06.2021,
Online kick-off event**

Welcome Note

Introduction Export Initiative Energy

Charging infrastructure and Storage Solutions planning in Germany

Introduction: Charging Infrastructure in Germany

Overview Storage Technologies

Q&A Session

Best Practice - Target Market India

Overview: E Mobility - Risks and Chances

Best Practice examples

Q&A Session

Breakout Rooms Direct chat opportunity in smaller groups with speakers

**Tuesday 15.06.2021
Current scientific developments & applications in e-Mobility**

Welcome and Introduction

Meeting with Research Institute

Introduction to comprehensive e-Mobility concepts for cities and townships

Q&A Session

Session 2

Welcome and Introduction

Session on:

Charging Infrastructure related technology

Q&A Session

Wednesday, 16.06.2021

Project presentations: E-mobility Storage Solutions

Welcome and Introduction

Session on

Li-ion Battery technology

Q&A Session

Session 2

Welcome and Introduction

Session on:

Other storage technologies / Fuel Cell Technologies

Q&A Session

Thursday, 17.06.2021

Project presentation III: E-mobility in transportation

Welcome and Introduction

Session on:

Case Study/ Company in e-Vehicle development

Q&A Session

Feedback Session with Participants
