# **Placement Opportunity**

Undergraduate (BA) student: Graduate (MA) student:  $\boxtimes$ 

Reference:	Enroute – Frontend Developer
Company Name:	Enroute
Company Type: (Startup/Mature/)	Startup
Location: (full address)	7 Shevach St.Tel Aviv
Duration of stay: (min 2, max 6 months)	Flexible

## **Company Description:**

Enroute has developed a personalized, location-based commerce and loyalty plug-in for mobility companies. Enroute's solution is embedded in ride-hailing and mass transit mobility apps for companies such as Uber, Lyft, Deutsche Bahn, and others. The service allows passengers to earn rides for FREE as they shop, interact, click, and collect items from locations close to their destination. Enroute's smart algorithms create a unique experience for passengers based on the ride details and the user profile. Enroute's location-based commerce layer allows passengers to shop online and collect the orders from shops next to their destination or along the route. This capability is supported by unique data-driven algorithms that tap into inventory systems in real-time.

#### **Job Description and Tasks:**

Internship job title: Front End Developer

Internship description:

We are looking for a qualified full stack web developer to join our R&D team. You will be part of the dev group and will work on the core product. You should be able to translate our company and customer needs into functional and appealing interactive applications. We expect you to be a tech-savvy professional, who is curious and can learn new topics fast.
