Practitioners' Forum on Energy Efficiency and Renewable Energy

Tuesday, September 24th, 2019
Fairmont/ The Norfolk, Nairobi

Conference Outline

On Tuesday, September 24th, 2019, the [Delegation of German Industry and Commerce in Kenya \(AHK Kenya\)](#) hosts a Practitioners' Forum on Energy Efficiency and Renewable Energy at the Fairmont/ the Norfolk Hotel in Nairobi.

Energy efficiency applications in Kenya are becoming more and more important against the background of high and still rising electricity prices. Kenyan industries are approaching international standards in their production processes and must exploit efficiency potentials at all stages of value creation.

A set of renowned German solution providers are going to present and discuss with you their competitive edge in optimizing your energy consumption.

The days following the conference, the German experts are matched with interested Kenyan companies and stakeholders for b2b meetings in order **to assess their energy supply situation**, ideally **presenting solutions to optimize their energy consumption**.

The Conference and B2B meetings are implemented under the auspices of the [German Federal Ministry for Economic Affairs and Energy as part of its Germany Energy Solutions Initiative](#).

B2B Meetings with Practitioners from German Solution Providers in Energy Efficiency and Renewables

During the conference on Tuesday, September 24th: B2B meetings with German experts
Parallel to the conference sessions **individual B2B appointments** can be scheduled with the participating experts from German energy efficiency and renewable energy companies. Please contact us!

Days following the conference: B2B meetings to be held at your company site with the experts from the German companies

This conference marks the kick-off of a business trip of the experts from the participating German companies through Kenya. The business trip with individual meetings throughout Kenya takes place from Wednesday, September 25th, to Friday, September 27th, 2019.

If you are interested in **discussing the optimization of your energy demands with one or more of the German delegates directly at your company's premises**, please contact us.
