

DEAN DALTON

Company Consultant for FlyingSpaces NZ Ltd

- Helping new businesses to get started,
- developing concepts for healthier homes,
- energy efficiency and
- developing business plans to grow building companies successfully

– these have been Dean’s passions over the last 20 years. When the opportunity came along for Dean to work with FlyingSpaces NZ Ltd, all of these attributes were combined – perfect. And so, for Dean and the FlyingSpaces team, begins the very interesting and exciting journey of introducing to the people of New Zealand these 100% high-spec homes. Promoting healthy living, these homes comprise of 25 tons of eco-friendly living spaces and are prefabricated in Germany, based on an interlocking modular structure to exacting standards. Each home is personalised to a customer’s requirements and constructed to a high-tech “passive-house” design.
